

A simple monoblock shell is turned into an upholstery success thanks to deberenn's craft quality. The sewing lines on the foam are not only giving the chair a nice look but also adding its comfort level. The combination of the strength of plywood and the high-density foam makes Info a correct chair for durability needs.

Cafeterias and seminar halls are all perfect areas to be furnished with this elegant and popular model. Info is easily recognized for its characteristic quilted pattern and timeless look in any areas. The horizontal seamed Info chair is already an essential solution for all spaces with its fresh and exciting design.

### Wooden Carcass

Carcass is made up of pre-made shaved and curved 10 mm beech plywood.

### Foam

Seat bottom is aligned with 2 cm 45 DNS soft foam and while 45 density 1 cm soft foam are aligned on the sides and backrest  
 Seat is covered with synthetic fiber to allow smooth fitting of fabric.

### Frame

2mm metal plates are cutted with the laser cutting machine. After its form is given with the press brake machine, the metal legs are powdercoated or chrome coated then attached to the sofa.

### Upholstery

In creation of upholstery, CNC Fabric Cutter cuts a measured amount of fabric into specific dimensions. All fabric connections are made with special fabrics. It is then sewn; single stitched, and zippers attached. All sewing and lock stitching are made with extreme care. Fabric is then carefully upholstered to our wooden frame.

### Fabric Consumption

	INFO
COM *	1,25 lm
COL **	2,27 m <sup>2</sup>

\* Customer own fabric and artificial leather width 140 cm

\*\* Customer own genuine leather
