

The round and welcoming shape of the Bussola armchair invites you to sit down and relax. It offers maximum comfort in a contemporary and minimalistic design that suits all kinds of environments. Even a small room can fit this compact and versatile lounge chair that will be an elegant addition to the interior design.

The sophisticated elegance and compact proportions allow Bussola to thrive harmoniously in any setting – from home decor to hospitality – and to be easily paired with the new seating systems. You feel a sense of security as you settle down into it. This is due, on the one hand, to the generous seat surface and high back at an angle that brings the spine into the perfect upright position.

Wooden Carcass

The backrest carcass is made up of pre-made shaved and curved 10 mm beech plywood. Wood frame is constructed from 18mm poplar plywood, beech timber and 8 mm MDF. Poplar plywood is cutted to suitable sizes with CNC cutting machines. Then the bottom part and pouffe, are closed by 3 mm MDF board to reach a smooth and durable surface.

Foam

Outer surface of seat body is covered with 22 DNS grey foam with a thickness of 1cm then wrapped with 60 grams fiber. The seat and back is made of durable foam at 32 /35 density 8 cm to reach a long lasting and comfortable seating.

Upholstery

Predefined amount of fabric is cutted in pieces by CNC Laser Fabric Cutter machines. The cutted pieces are joined via needle sewing machines and upholstery is done. When upholstery process is fully completed, the arms are fitted to the body. Dust cover is stapled underneath the sofa to give the sofa a finished look.

Fabric Consumption

	ARMCHAIR	POUFFE
COM *	3,40 lm	1,40 lm
COL **	6,20 m ²	2,60 m ²

* Customer own fabric and artificial leather width 140 cm

** Customer own genuine leather
