

City is a minimalist sofa, designed by Christophe Pillet and is characterized by a cubical and gentle form that invites interaction between people. With its puffy seats and backs, it provides a relaxed and comfortable feeling. Comfort, elegance, and serenity come to life with City. This contemporary sofa unit, dynamic layouts suitable for modern designed individual or public areas.

City carries the same characteristic features of Christophe Pillet's designs in elegance and functionality. This sofa group is like an answer to all your needs with its sleek design and rich product family and modularity whether as a single chair, two or three seats or as a large corner configuration perfectly suits the offices, meeting rooms, receptions and lounge areas.

Metal Carcass

City's outer carcass is made of iron profiles and tubes. Top and bottom parts of the carcass as well as right and left lines of the sides are made using 21 mm diameter iron tubes. There are 20x20 mm iron profiles inside the outer carcass forming plus signs to enhance the stability. Inside the rectangular seating carcass, 20x40 mm profiles are used to increase strength.

Foam

Elastic belts and cotton wool fibers are fixed on the metal carcass. Seating is made by placing specially shaped 35 density 14 cm soft foam on 8mm MDF, whereas 35 density 10 cm foams are used for the sides and back. We use water based adhesives while fixing the foam to the carcass as a part of our environmental policy.

Frame

Iron tubes on 4 sides also go down to form the legs of City sofa by having a cover of 25 mm chromed iron tube on leg level.

Upholstery

In creation of upholstery, CNC Fabric Cutter cuts a measured amount of fabric into specific dimensions. All fabric connections are then sewn and single stitched via needle machines. Parts which give the sofa its unique shape are upholstered separately and then combined with the upholstered outer metal carcass. All sewing and lock stitching are made with extreme care.
