

Basic cubic and circular shapes blend with almost any architectural environment. Moda has been designed for both homes and public spaces. The bicolor fabric combination facilitates adaptability to different ambiances. The surfaces and the various elements of upholstery, the tailoring, the stitching detail on the covers are all combined in this highly expressive piece.

All Moda items can be fixed or on castors as per your choice. In addition to the basic round and square shapes, the collection also offers a curved amorphous shape which creates a nice group with 4 identical pieces. The variety of modules help to create a versatile sitting environment; are ideal for waiting rooms, lounges, lobbies, and libraries.

### Wooden Carcass

Wood frame is constructed from 18mm poplar plywood and 3 mm MDF.

### Foam

Seat top is aligned with 35 DNS 5 cm firm foam while the sides are aligned with 22 DNS 1 cm foam.

### Upholstery

In creation of upholstery, CNC Fabric Cutter cuts a measured amount of fabric into specific dimensions. All fabric connections are made with special fabrics. It is then sewn; single stitched, and zippers attached. All sewing and lock stitching are made with extreme care. Fabric is then carefully upholstered to our wooden frame.

### Fabric Consumption
