

Shelly Mini is a great solution for office spaces or public areas looking for compact and original designs. It's ideal for both; formal areas and those designated for comfort and relaxation. The armchair has a compact form, which is an important feature in areas with limited space. Users intuitively follow the possibilities on offer:

sitting or lounging around, relaxing or concentrating, on your own or in dialogue. It can be equipped with an auto-return function, making them ideal in rest zones that need to be kept neat and orderly. It comes with non-removable fabric or leather upholstery. Its clean lines makes it suitable for all kinds of environments.

Seat Part Metal Frame

13 mm dia. welded metal tubes supported by 5x20 mm, 3x20 mm bended metal sheet plates together create the frame in form of a seat shell.

Seat Part Polyurethane Injection

The frame is placed in the mould and fixed by using M8 bolts. Ideal density of polyurethane compound, 4505 grams of polyurethane and 2583 grams isocyanate, is poured into the mould, waited on average 7 to 8 minutes to harden. When the the seat shell is sculpted to the desired shape, it is separated from the mould, cleaned, grinded with limer 80 emery to give the it a smooth surface.

Upholstery

Predefined amount of fabric is cutted in pieces by CNC Laser Fabric Cutter machines. The cutted pieces are joined via needle sewing machines at the sewing station then the seat shell is fully upholstered at the fitting station.40 wt.thread is used for sewing, 20wt.thread is used for blind stitching on the outside of your upholstered work.

Fabric Consumption

	SHELLY MINI	WITH BACK QUILTING
COM *	2,80 lm	3,00 lm
COL **	5,10 m ²	5,50 m ²

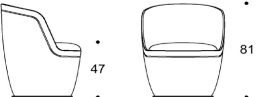

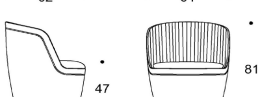

* Customer own fabric and artificial leather width 140 cm
